## They're Here THE NEW FALL CLOTHES BY LEISHMAN

Here and ready for your inspection. It's always an event—this first look at the styles for fall, but this year it seems to be twice the event of other seasons. For one thing the clothes themselves are more interesting than at any time in years. There are new fabric ideas which are very interesting. It will be worth your while to look over our new display before purchasing.

### LOCAL ITEMS

Hotel Royal, near C. P. R. station, on main street, Vulcan. Rates 50c., 75c., \$1. The town premises owned by Mrs. T. A. Martin have been much improved in appearance by the application of paint to the residence.

Members of Vulcan Cadet Corps, in camp west of High River for a week, returned home on Sunday. The boys report having had a jolly good time.

The business premises on the main street, owned by Mr. W. A. Howes, and occupied as a millinery, have been repaired and fixed-up in preparation of a paint-up.

Rev. J. W. Jenkins will preach at Kirkcaldy, Sunday, August 14th, at 12 o'clock, subject, "Building on a Sure Foundation," and at Vulcan, in the Old Fellowship hall, 7:30 p. m., subject, "Did Christ Name His Church and People." All are cordially invited.

The Canadian Legion, Vulcan Branch, will announce next week in The Advocate and otherwise, the definite date of their big dance and the drawing for the prize car. In the meantime the ticket-selling campaign will be continued and it is sure that the enterprise of the Vets will be well supported.

Calgary papers carry conspicuous announcement of a grand soccer match, Calgary Callies vs. Edmonton Nationals, at Calgary on Saturday evening. This is interesting in Vulcan, as the result of this game will determine the team which Vulcan will play in their first game in the Bennett shield competition.

Vulcan sent a team to the baseball tournament at Blackie on Wednesday afternoon, which was advertised as a "simon-pure home-talent" event. The tournament was won by Nanton with Slim Haynes of Staveland pitching. Vulcan lost to Blackie in the first draw. The tournament was not very largely patronized, though quite a number went up from Vulcan. District baseball events of this week include the defeat of High River by Claresholm in two straight games in defence of the Brewery trophy. Vulcan fans attended these games in considerable numbers. They play very good ball on the other line this year, perhaps as good as there is in Alberta. Reports of the games in the south would indicate that Steve Seaman, who was not so long ago a resident in Vulcan, is doing some successful pitching with the miners' team at Lethbridge.

The proposition of bringing two teams to Vulcan for a demonstration game of lacrosse caught on well with the several old-time players resident in town and district. The many people here who have never seen lacrosse demonstrated a lively interest in the idea. There was a meeting of the promoters of the scheme and a committee was appointed, with Messrs Fred Anderson and Al. Collier as officers, to continue the negotiations with the Calgary teams for the proposed visit. Wednesday next, August 17th, is the date that was suggested, but it has been since found that the players desired for Vulcan will on that day be playing in the final for the provincial championship. The committee is now making the effort to arrange the event for the following Wednesday, which would be August 24th, and this will be an answer to the many inquiries until more definite information is available. It is quite remarkable the interest that has been manifested in the event, and this presages a big audience when the teams do come.

### LOCAL NEWS ITEMS

The correspondent sends information of the success of Misses Willa Carr and Nellie Douglass, pupils of Berrywater school, who passed the Grade 8 examination.

The Wheat Pool, in reporting a number of the contracts received covering large areas, includes that of Hon. O. L. McPherson for three hundred and fifty acres at Vulcan.

Mr. and Mrs. James Ross and Mr. G. Hatch have just returned from a holiday trip to the coast, and report that among the former Vulcan people whom they met out there were Mr. George Clifford and Mr. Clyde Hall. The latter contemplates a trip back to the old town.

The pole line to give electric service to the town of Claresholm along the C. P. R. which has been constructed by the Vulcan Light & Power Company and will be made a part of their distribution system, is practically completed, and the work of hooking up the services will be undertaken as there is opportunity to meet demands.

The vote taken at Stettler on Wednesday, on the question of the establishment of a municipal hospital district, was decisively favorable, with five small polls to hear from, the vote standing 1042 for and 585 against. This is just now very interesting in view of the fact that in a short time a similar vote will be taken in the Vulcan district.

The general report of the girls' clubs in Alberta, published in the city dailies, has the following reference to a local oration: "Maple Leaf of Vulcan will have a picnic in conjunction with the Deeds Institute. A camping trip is being planned. Dorothy Andrews was chosen as new secretary on resignation of Mavis Ruark."

Rev. George Wood, of Calgary, will conduct services next Sunday as follows: Brant 11 a. m., Ensign 3 p. m., and in the United Church, Vulcan, at 7:30 p. m. Rev. R. T. Harden will conduct the morning service in the United Church, Vulcan, and will conduct a service at Red Cross school in the afternoon.

The arrangements are being made for a recital to be given in the theatre on September 1st, by Miss Beulah Walker and Miss Marion Lebeau. This announcement will be enthusiastically received in Vulcan and the opportunity will be welcomed to hear in joint recital two of our most estimable citizens and talented young ladies. Details of the event will be published later.

Mr. George Munro, of the Vulcan Branch of the Canadian Legion, at an assembly of ex-service men in the district recently held, had the honor of being the second of a resolution which will convey to the Prince of Wales an expression of the loyalty of the Veterans and also their wishes that the stay of His Royal Highness in the district will be such that he will return to his home land with the kindest recollections and remembrances. This resolution, which had the hearty and unanimous endorsement of the ex-service men, was presented by Mr. McKenzie, of Claresholm.

The system of reporting examination results certainly does not make it easy for the weekly papers to secure the pass list, and the fact that teachers and pupils are holding adds to the difficulty. Grading eleven, ten and nine, as it affects Vulcan candidates, have so far been impossible to check, but in Grade eight, while the names have not been available to this paper, it has been established that all but one passed, and there was a large class. Miss K. Smith was the teacher of the class which has added so splendidly to the fine record of Vulcan schools. The names of the successful pupils in the several grade will be published later.

Mr. V. S. Cole, who will be remembered as a citizen, maintains an interest in Vulcan, as the following note to The Advocate would suggest: "I am indeed sorry to hear of the destructive storms which have visited our little home town. I can hardly make myself believe so much could happen in so short a time and when everything looked the brightest for a wonderful crop. Mrs. Cole and self are having a delightful time. Spent last winter with our daughter in Oakland, California, and this summer we are in our old home town, Fairchild. We, meeting friends, we have not seen for twenty-six years. The Advocate reaches us every week, and we are sure glad to read every word."

### LOCAL NEWS ITEMS

The paint has been ordered and the theatre exterior is to be decorated, and this will be some improvement. The boys have been touching-up the interior at the Vet's club, and it looks much better.

Mr. J. N. Scobbie of Vulcan visited with Messrs. Rivett Bros. over the week end and took a trip to the E. P. Ranch for a day's outing.

The Prince of Wales must feel relieved to be away from the clamor and unnecessary demand made upon him by the various organizations throughout the dominion.

It is understood that Brant, Ensign and Vulcan were connected with the Calgary Power Company's hydro line on Wednesday night. This makes ten towns connected with hydro with an addition of nineteen rural services.

Mr. McMullen of Calgary was in May last week getting people of the village to sign a petition to secure a beer license. If this is secured, Mr. McMullen is going to erect a new thirty thousand dollar hotel in Cayley, the probable site being north of the pool hall.

According to reports, there will be a drop of from 2 to 2½ cents per pound in the price of binder twine this season, all of which will be pleasing news to farmers generally. One factor in the twine reduction this year is the combine which is becoming popular throughout Western Canada.

Mr. Frank Garrison writes to The Advocate from Balboa, California, and says that he is in the midst of one continuous round of excitement, attention is made of beauties, the ocean, and such like, and sea water that turns the hair of the head red. He must be having a great time.

The Advocate Man saw Messrs. Dolan and Allen, officials of the Government Telephone, giving the premises of the Vulcan exchange, the one over, and they were complimented by Mr. Bill Scott on the beauty of the trees and grass, flowers, and generally attractive appearance of the place. It is a nice spot.

The farm residence west of Richmond school corner, which has been undergoing alterations and repairs in preparation for occupancy, is now in good shape, and it will be made the home of Mr. and Mrs. Robt. Irwin, whose marriage was recently reported in these columns, and to their new home will go the best wishes of many friends.

The crops of this district are progressing favorably under ideal conditions of bright sunshine and hot days. The nights are cool averaging about 55° above with no indications of frost up to the present time. With a continuation of this a large and high grade yield will be the harvest. All the standing crops are wonderful and without further damage will result in a better than average total production. Reports of frost in Saskatchewan caused a flurry in the market the past week with a resultant long advance in price, and the general outlook for good prices on grain this season is favorable.

It is perhaps not too soon to stress the fact that this year the Vulcan and district school fair is to an extent to be a two-day event, commencing on September 29. It is planned to have the exhibits in place in time to have all judged by night of the first day, when the exhibition will be opened to the public and an entertainment given in the rink. The next day, Friday, September 30, the exhibits will be on view all day and there will be the program of special features, and this year better than ever. The advantages in the change of arrangements will be quite apparent.

Mr. and Mrs. Clarence Sage have returned after a holiday outing. They were of a party that was in camp for a week at Banff, and their experiences were responsible for a bear story that required a half column in the Okotoks Review to tell. A black bear invaded the camp, and when all had fled for safety, bruin devoured all the grub in sight, and then departed. The story is made up of each telling just what the other did when the bear made its appearance. Mr. and Mrs. Guy Denigh and children were also recent visitors to Banff, and though they did not experience any animal invasion they tell of having seen as many as eight bears.

"Notice to Ratepayers," printed in this issue of The Advocate is evidence of still further progress in connection with the municipal hospital proposition. As indicated by this notice, a provisional board has been selected to manage the scheme until such time as a permanent board shall be constituted by and under the law in the matter, this order for publication of the notice being one of the first things required in the regular procedure. The perusal and study of this notice will be of value to all who desire to become informed in an authoritative way of the details of the hospital scheme. There is an intimation of interest in the notice, and that it is a permanent board shall be constituted by and under the law in the matter, this order for publication of the notice being one of the first things required in the regular procedure. The perusal and study of this notice will be of value to all who desire to become informed in an authoritative way of the details of the hospital scheme. #### PEACE BRIDGE

The Peace Bridge ceremony at Niagara this week was one more evidence of the good feeling existing between English speaking peoples. The tone of the speeches which took place at the U.S. end of the bridge was based on the fact that the bridge stands upon the site of an ancient battleground of the war of 1812. The American terminal rests upon the site of Fort Poiler abandoned last year as a United States army post while the Canadian end is but a short distance from the ruins of Fort Erie famed for its part in the last war between the two nations. The fact that the heir to the British throne mingled with Canadian and American statesmen at the function shows in all essentials, that there is a will for peace and that feeling is getting stronger as the years go by.

#### AMEE McPHERSON

For seven or eight months now our Canadian and American dailies have given a great deal of front-page space to the doings and sayings of Amee McPherson. We have scanned with considerable disgust pages of the nauseating details of every manner of crime, murders, triangle difficulties etc., etc., but we must confess that never have we been so completely sickened as we have been by the inevitable "Amee" stories as we have them forced on each day in our dailies' front columns. First of all it was Amee's kidnapping and trial. Whether there was guilt or no, we think that the publicity which was accorded the Los Angeles evangelist and her temple of worship, not forgetting her Ma, will ever remain to stigmatize our generation with some form of curmudgeon degeneracy. We are here rather pardoning the news monger because if the average reader rebelled against such news it could not be capitalized as it now is. "Oh Rome thou hast lost thy breed of noble bloods." Sorry commentary, indeed on our day and generation. When shall we have a public protest to such regaling to our reading public of the trash as the Amee McPherson stories? What man with a spark of manliness in his make-up does not find his blood boil when he finds in his family daily whole pages devoted to such utter buncombe as the incident of last week, the quarrel between "Amee" and "Ma"? Exasperating does not fully express it. We feel like crying out in our despair, "O tempora, O mores!" When shall we have an end of it?—Western Catholic.

The Toronto baseball club asks for a street car to its ball park, and one of the arguments advanced by its supporters is that the club does more than any other agency to advertise Toronto. This may be true, but it is also true of the Toronto baseball club, as of every other professional baseball club, that it owes its patronage and its revenues to the fact that the daily newspapers each year give it free publicity by the thousands of columns that any other commercial agency must pay real money to get.

Sir William Ashley, British economist, who died this week, was professor of economics at Toronto University back in the 80's. Toronto University still combs Oxford for its professors of economics.

One thing wrong with Canada is that while every boy in the United States hopes some day to be president only a rare Canadian youngster ever thinks that he might some day be prime minister.

Despite the fact that he is publishing a weekly newspaper at Dearborn, as a side issue, Henry Ford made a billion dollars in the motor business.

A man may be down, but he is not out until he is down in the mouth.

The man who talks to himself wants to hear something he can believe.

#### WHAT THEY WANT

We notice that some towns are putting up high schools costing as much as \$70,000. What's the big idea? It's baseball diamonds, aerodromes, and theatrical stages the ratepayers should be voting on, for it's the pitchers, ball sluggers, aviators and screen artists who draw the crowds and get the honor and big pay these days. Studying the classics, worrying over mathematical problems, reaching out into the realms of history and literature, practising art and dissecting birds and fishes never produce anything sensational and the instructors in higher education have no place in the sun and a very small place at last in the obituary columns.—Chesley Enterprise.

#### REDS TAKE VENGEANCE

As a result of the publication of letters from Meola Sacco and B. Vanzetti in American papers, who are awaiting the death penalty for a crime committed six years ago, in which they again seek a new trial, a wave of sympathy has been aroused in behalf of the condemned men and every effort is being put forth by radicals and reds throughout the world to stay the executions. On August 6 a double explosion in the subway at New York occurred which wrecked two stations and injured a score of people. At Baltimore, Philadelphia, homes were bombed and sympathizers are resolved to take vengeance. All of which illustrates the absurdity of publishing the appeals of men who are avowed criminals and who should have answered for their crimes six years ago.

We are progressing. We no longer say that a pest is inevitable. We set out to overcome it. We no longer say it is impossible. We say that we can overcome it. Our fight against noxious weeds is but another of the many fights that it is necessary to wage against the adverse forces of nature if we would wrest from the earth its full benefit to us. And we have learned that we can only succeed in these fights if we are united.—Simcoe Reformer.

Municipal Foresters will do more than yield a revenue for the next generation; they will provide protection from high winds, they will help to prevent freshets, and they will hold in reserve for summer use the winter precipitation that now rushes off with damaging results in the spring.

There are four partners in Kuhn, Loeb & Co., Wall Street's second largest banking house. One is interested in the Boy Scouts; another in music; a third in Jewish charities. The fourth is interested chiefly in business.

Henry Ford has changed his mind about Jews about co-operative marketing; about Aaron Sapiro, and about his car. And every change cost him a little change.

Time is indeed the great healer. The newspapers are writing very nice things about Hindenburg on his 80th birthday. Ten years ago—

Brig-Gen. Dyer, who suppressed the Amritsar rebellion of 1919 with a rifle fire, is dead. He died with a black cloud on his reputation.

Bancalt Corporation, world's largest investment trust, owns 6,000 shares of C.P.R. stock. An example to Canadian investors.

Wrigley's gum profits for six months were \$9,000,000. If we had prohibition of gum chewing they might even be larger.

It might help some if the manufacturer would use a miniature figure of a coroner as a radiator cap ornament.

And so the earth is losing speed. Well, that sounds hopeful. Perhaps it is on the up-grade.

The nice thing about being a man is you don't have to stay home after you wash your head.

How dull business would be if every man refrained from buying until he could afford it.

Many a man calls his wife the better half, when she is about 90 per cent of the family.

An eye-specialist says green quiets the nerves. This is especially true of green beans.

#### MAP MAKING

One of the principal map making establishments of the Dominion Government is the Topographical Survey, Department of the Interior, at Ottawa, where are prepared and published topographic maps covering widely scattered portions of this Dominion. In publishing a new map all available information of the country is, of course, secured and where some of this has been obtained by other survey organizations, credit is given in the publishing note.

The printing of a map involves several processes. It must first be drawn on good paper, preferably backed so as not to stretch or shrink with changes of weather or moisture. If more than one colour is to be used in the printing a separate sheet is drawn for the information represented by each colour. These sheets are then photographed and the negatives printed on zinc plates or in some cases on lithographic stones. These plates or stones are put in the printing press and the map is printed from them. Where more than one colour is used, the map has to be run through the press for each colour and it is very important that the sheets fit the plates correctly so as to get the additional colours on the map in their proper places. For instance main highways are usually printed in red; on the map these red lines must be exactly in the right places. So also for the blue colour in which water features are shown and the brown for contours or form lines. Herein lies the chief difficulty in printing maps in colours. Where an issue of several thousand copies is being run, it is necessary to print all the copies in one colour at a time, and while these are drying the ink is washed off the press and the next colour got ready. If the weather changes, especially if the air gets damp, the sheets of paper stretch or shrink and trouble is encountered in making the next colour fit exactly where it should. A list of the maps, plans, and publications of this organization may be obtained upon application from the Topographical Survey, Department of the Interior, Ottawa.

#### HORSES IMPROVING

The Livestock Review of the Department of Agriculture at Regina announces that the Government is looking for 1,500 head of horses for shipment to Russia. These are light horses. "In addition to these," says the Review, "we received an enquiry a few days ago for three carloads of horses for shipment to Manitoba and to Eastern Canada. These horses require to be from 1,400 to 1,700 lbs. in weight, the heavier the higher the price. We also have an enquiry for choice delivery horses. These must be perfectly sound, showing breediness and character, in good condition, well-trained, well broken and perfect in quiet. With these demands the horse market appears to be improving."

#### INHERITED FORTUNE AND DIED

Rod Hilton, a young Scotsman, and Great War veteran of Granum, working for a farmer near there at light jobs, received word from Manitoba stating that an uncle had died leaving him heir to a large estate of 900 acres of land and \$60,000 cash. He left immediately and two days later a report came back to Granum stating that young Hilton was taken suddenly ill on train at Kipling and died. He was wounded in the war and had a presentment that he would not live long. A fortune teller told him after his return from France that he would inherit an estate but would not live to enjoy it.

#### COUPLE OF MODEL FARMS

Talking about model farms, we commend the farms of F. L. Malling and F. Addiman of Glenview, as worthy of special mention in that connection. The homes, barns and out-houses are of fine architecture, well preserved with paint and surrounding the buildings are splendid groves of trees and windbreaks that greatly enhance the appearance of the countryside. Another noticeable thing is the absence of noxious weeds and the well trimmed fields of grain, now rapidly maturing and awaiting harvest operations.

"Banks are great conveniences," remarked the bandit. "Yes," agreed his accomplice, "it makes it much easier for us when people deposit all their money in one place instead of compelling us to rob each of them separately."

It is stated that women's ankles are apt to lose their slim lines in the hot weather. The prodigal sun reveals the fatted calf.—London Opinion.

"We" are insured for \$150,000. E. P. Veitch, a New York broker, revealed that several policies have been placed on the life of Charles Lindbergh and on his plane, "The Spirit of St. Louis," for the duration of the transatlantic flyer's countrywide tour.

Further proof of the wealth of the Alberta oil fields appears in the reports of two strikes made recently in wells in the Turner Valley Field, according to Provincial Government reports. At the Dalhousie No. 5 well a heavy flow of crude oil testing about 42 Beaume is reported at a depth of 4,325 feet, while at the Regent well, production of crude oil testing about 60 Beaume was reached at 2,365 feet.

Mrs. John Laughton, of Norway House, Manitoba, probably owes her life to the inventor of the airplane and the Royal Canadian Air Force. Recently she was taken seriously ill and an abdominal operation was necessary. To receive the medical aid that was urgently needed she was taken to The Pas by airplane. The operation was successfully performed and Mrs. Laughton is recovering.

## Notice to Ratepayers

In accordance with the terms of the Municipal Hospitals Act, petitions were received by the Minister of Health at Edmonton, asking for the creation of a Municipal Hospital District including the territory described below.

Complying with these petitions, the Minister of Health established the Municipal Hospital District on June 21st, 1927. Following the establishment of the District, the Municipal Councils in the said District, in accordance with the terms of the Act, duly appointed a Hospital Board to prepare a scheme for the building and operating of a Municipal Hospital in the said District.

The Hospital Board met and prepared the scheme outlined below. This scheme is now, under the direction of the Minister of Health, to be advertised throughout the said District for a period of fourteen days following which, providing all other conditions have been complied with, the scheme will be finally approved by the Minister of Health.

Section 22 of the Municipal Hospitals Act provides:-

"After approval, the Minister shall fix the date for the taking of a poll for the purpose of obtaining a ratification or rejection of the establishment of the District or of the scheme, and shall appoint a returning officer, who shall divide the hospital district into polling divisions and name a polling place in each division and appoint the time and place, when and where the returning officers shall sum up the votes given for and against the scheme."

Section 26 of the said Act provides:-

"The establishment of a district shall be deemed to be ratified if it is approved by a majority of the voters voting thereon, but no scheme shall be adopted unless it is approved by two-thirds of the voters voting thereon."

The area of the Hospital is as under:-

**MUNICIPAL DISTRICT No. 128.**

Township 16, Ranges 22 and 23.

**MUNICIPAL DISTRICT No. 157.**

That portion of Township 17, Range 21, West of Lake McGregor; Township 17, Ranges 22 and 23; Township 18, Range 23; Township 19, Range 23; Sections: 3, 4, 5, 6, 7, 8, 9, 10, 15, 16, 17, 18, 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, 34.

**MUNICIPAL DISTRICT No. 158.**

Township 16, Ranges 24 and 25, that portion of Range 26 East of Little Bow River, Township 17, Ranges 24 and 25, that portion of Range 26, East of Little Bow River, Township 18, Ranges 24 and 25.

**MUNICIPAL DISTRICT No. 189.**

South half Township 19, Range 24.

**THE TOWN OF VULCAN.**

The basis of the scheme is as follows:

- To accept a free site at or near the Town of Vulcan subject to the approval of the Minister of Health.
- To erect a Municipal Hospital and to equip same with an operating room and all necessary appliances including X-ray.
- To supplement the revenue derived by taxation by a schedule of fees as under:

(a) To all persons liable for Hospital taxes under any Municipal Act, dependent members of his or her family and female domestic help \$1.00 per Hospital day.

(b) To all persons not liable for Hospital taxes under any Municipal Act upon payment of the sum of \$6.00 on or before one month from the date of opening of the Hospital and on or before the First day of February in each subsequent year \$1.00 per hospital day including dependents and female domestic help.

(c) No charge for drugs, dressing or use of operating room or X-ray to persons covered by Section (a) and (b) of this scheme.

(d) SECTION (17) of the Municipal Hospitals Act provides that "Every taxable person in any city, town, village or hamlet within a Municipal District which is situated in a Municipal Hospital District shall, if his tax to the Hospital District be less than six dollars per annum, pay an amount to the said city, town, village or Municipal District for transmission to the Secretary-Treasurer of the Municipal Hospital District, which shall make his annual payment to such Municipal District not less than six dollars."

(e) All persons not liable for hospital taxes under any Municipal Act and do not comply with the provisions of (3a), (3b) and (3d) of this scheme shall pay not less than \$3.50 per Hospital day with an additional charge for drugs, and dressings and use of the X-ray together with a charge for use of operating room as under:

Minor operations, \$ 5.00

Major operations, \$10.00

- To create a debenture indebtedness of not more than \$35,000.00 twenty year debentures for the purpose of erecting and equipping the Hospital Building.
- To repay said debentures in equal annual payments of principal with interest accrued, or equal annual payments of principal and interest combined or as under as may be.

### 6. DISTRIBUTION OF CAPITAL AND MAINTENANCE

#### (A) TAXATION:

M.D. No. 128.....	45,464 acres @ 3c.....	\$ 1,363.92
M.D. No. 157.....	84,732 acres @ 3c.....	\$ 2,541.96
M.D. No. 158.....	175,520 acres @ 3c.....	\$ 5,265.60
M.D. No. 189.....	11,222 acres @ 3c.....	\$ 336.66
<b>TOWN OF VULCAN.....</b>		<b>\$ 1,500.00</b>

\$11,008.14

#### (B) ESTIMATED REVENUE.

Fees from patients.....	\$ 4,500.00
Ratepayers under Section 17 as amended.....	\$ 600.00
Special agreements.....	\$ 400.00
Operation Room.....	\$ 150.00
Government Grant.....	\$ 2,000.00
Assessment Revenue as above.....	\$11,008.14
	<b>\$18,658.14</b>

#### (C) ESTIMATED EXPENDITURE.

Administration Expenses.....	\$ 1,000.00
Professional care of patients.....	\$ 5,700.00
General supplies.....	\$ 1,800.00
General House and Property.....	\$ 1,500.00

#### (D) CAPITAL REPAYMENTS.

1-20 of \$35,000.00.....	\$ 1,750.00
Interest at 5 1/2 %.....	\$ 1,925.00
Allowance for non-collections.....	\$ 4,983.14
	<b>\$18,658.14</b>

The following information is given in order that the ratepayers may clearly understand the procedure followed under the Act in connection with the establishing of the District and the ratification of the scheme:-

On the date fixed for the vote persons entitled to vote will be given one Ballot. The Ballot will read as follows:-

"Are you in favour of the Municipal Hospital scheme?" "Yes."

"No."

If two-thirds vote "yes" it will establish the hospital district, and approve of the scheme at the same time, and your hospital will be built at once. If less than two-thirds, but a majority vote "yes" it will establish the hospital district but will not build the hospital. In other words two-thirds must vote "yes" if you want a hospital.

## PRINCE ARRIVES

But Not on Special Train As Scheduled—Large Gathering at Station Disappointed at His Non-Appearance.

A gathering of about fifteen hundred persons, men, women and swarms of children, together with war veterans of the black and white, were in High River on Wednesday afternoon to see H.R.H. the Prince of Wales and his brother Prince George, who were scheduled to arrive here on their special train at about 12.15 o'clock noon. Great disappointment was noticed on the faces of the crowd and was openly expressed when it was learned that the royal party were not on the train, but were passing through High River later in the afternoon by auto, the Princess having decided to take a little recreation from their trip by playing golf at Calgary. Calgary was the last official stopping point of the party and the Prince's change of time and manner of arrival in High River was communicated to Mayor Young Tuesday morning through Mr. Carlyle, and was given such publicity through the town as possible, but the countryside and distant town people could not be so informed with the consequence that many were here for the occasion. In anticipation of this the Times felt under obligation to the people it serves to forward a telegram to A.F. Rascelles, aid to the prince, en route, expressing the anticipated disappointment here, and requesting, if possible, the arrival here as per schedule, but owing to the lateness of its dispatch not reaching the train until its arrival in Calgary when further changes in arrangements could hardly be expected, failed in its mission. Some unofficial information was also spread on Wednesday that the royal party would arrive by train at about five o'clock and many remained for this possibility. The Prince and party came on in two autos, passing through High River, without stop on their way to the ranch about 7 o'clock p.m. where he will remain for five days in restful recreation and looking over his interests there. The people of the district are sorry to not have been able to give him an informal shout of welcome as anticipated, but their loyalty is greater than any disappointments they experienced in not seeing him at this time and that his short stay at the ranch will give him much pleasure and good health and that perhaps we will see him before he leaves our midst.

High River, August 10, 1927.

### TO SEEK REAL HOLIDAY

When His Royal Highness, Edward Prince of Wales, seeks a few days' rest at his Alberta home nesting in the foothills of the lovely Pekisko Creek valley, his holiday will be snared this summer by a guest, his younger brother, Prince George. This is the young prince's first visit to his brother's beautiful ranch, stock from which has been sold and shipped to every part of the North American continent.

Those who have been associated most intimately with the royal brothers on the present journey declare the relationships which exist between them to be delightful. The Prince of Wales is most anxious that his brother shall have a pleasant time and makes an effort to see that he is enjoying himself. If Prince George's tastes are at all similar to those of the royal rancher whom Albertans love to claim as a fellow citizen, he can scarcely fail to enjoy himself on the E.P. ranch. Here the Prince of Wales does the informal part of a western rancher, his eyes shaded from the bright Alberta sunshine by a wide brimmed cowboy hat. He rides, swims, inspects his livestock enters into pleasant and informal intercourse with his neighbors and sometimes, even shares in the back breaking work of pitching sheaves and filling the silo with green fodder.

It is with pardonable pride that His Royal Highness may exhibit the attractions of the beautiful ranch which has become a distributing station for purebred cattle, horses and sheep throughout Alberta and done much to improve the livestock industry of Western Canada, to his brother.

Prince George is a lieutenant of the Royal Navy and is 25 years of age, having been born at Cork Cottage on December 20, 1902. His full title is His Royal Highness Prince George Edward Alexander Edmund of Windsor, K.G., G.C.V.O.

### FAMOUS BULLS

At a weekly luncheon in a London restaurant given by the Soroptimist Club, Sir James Percy gave an address. Slips or "bulls" made by the great, and quotes the following examples:

Mr. Gladstone (in the House): It is no use for the hon. member to shake his head in the teeth of his own words.

Mr. Joseph Chamberlain: The hon. member (Dr. Clark) did not want the truth. He asked for facts.

Mr. Parnell: Gentlemen, it seems unanimous that we cannot agree. Mr. Ramsay MacDonald: the empty grave where lie our ruined industries. Lord Carson: Mr. Asquith is like a drunken man walking along a straight line—the further he goes the sooner he falls.

The term "bull," Sir James stated, was said to have originated in the year 1740, when Obadiah Bull, an Irish lawyer in London, made his name famous by his blunders.

In Ireland, however, they always claimed the illustrious Sir Boyle Roche as the "father of bulls."

It was said that Sir Boyle himself once described a bull in the following words: "Supposing you see three cows standing up in a field and one of them lying down, that one is the bull."

His most celebrated bull was: "Why should we beggar ourselves to benefit posterity? What has posterity done for us," adding, "by posterity I mean those who come after us."

Sir James considered the following to be one of the choicest bulls ever made by Sir Boyle Roche: "All along the untrodden paths of the future he could see the footprints of an unseen hand."

"It is a mistake," continued Sir James, "to suppose that all the bulls are born and bred in Ireland, as I myself have heard some delightful specimens spoken by those who pride themselves on belonging to the Anglo-Saxon race."

"One of the best double-barrelled bulls was that of an agitator, who, complaining of the over-taxation of his country, said: 'If you put the hon. members on an uninhabited island they would not be there twenty-four hours in the pockets of the naked savages.'" (Laughter).

The perfect bull, Sir James thought, was that about two Englishmen who were sleeping together. In the middle of the night one of them fell out of bed on to the floor, and when the other asked why he was lying there he replied: "I got out of bed to tuck myself in."

## A CHILD'S DAY

Seeing the Prince of Wales I've seen him! I've seen him! I've seen the Prince of Wales, I had to wait a hundred hours upon the station rails, But the sight at last was worth it and I tell you now right straight I'd wait a thousand hours, if he came however late! I've seen him! I've seen him! another time I hope He'll tell us when he's coming—it sure will save the soap, Twice today my mother washed and scrubbed me good and clean, And said I really must keep still, and stay fit to be seen. I've seen him! I've seen him! and didn't he look fine, But riding in a motor car very much like mine. I thought maybe the Prince would come in chariot of gold, But then perhaps he's tired of it and wants to get it sold. I've seen him! I've seen him! and wasn't his smile kind. I guess he's got a cheery thought inside his royal mind. I suspect he likes us children a-cherineg through the dust! Yes, mother! I am coming! and aren't I hungry just.

—Clare Powell

## Then and Now

In 1920  
this Chevrolet 2-door  
Sedan Cost  
**\$1795.00**

In 1927  
this Chevrolet 2-door  
Sedan (Coach) Cost  
**\$750.00**

COMPARE the  
Chevrolet of  
seven years ago

with the Chevrolet of today and realize how radically Chevrolet has revised all conceptions of motor car value.

In 1920, the Chevrolet illustrated here represented the highest standards of quality and value . . . at a price of \$1795 (f.o.b. Oshawa) . . . over a thousand dollars more than you pay today for a Chevrolet that possesses style, luxury and refinement unthought-of in any car a few years ago.

In following its fundamental policy of constant improvement, Chevrolet has built up a production volume which places it first among all cars in the world. And Chevrolet has shared the savings of volume purchasing and production, with the public by reducing the prices of Chevrolet cars.

So, today, you get a Chevrolet with amazing QUALITY in its every detail at a fraction of the cost of a similar model Chevrolet of seven years ago.

## Did You Ever Stop to Think

—Just what a ten dollar bill which a farmer spends in his home town may accomplish? Let us follow it around. Probably the dry goods merchant gets it first. He passes it on to the hardware merchant in payment of an account. The hardware merchant pays it in wages to one of his employees. The employee pays it to his landlady, who pays a grocery bill with it. The grocer can then pay his butcher. The butcher passes this on to his produce merchant, and this produce merchant, buying largely from the farmer, passes this ten dollars back to the farmer, from whom it originally came. Thus it has, in the ramblings among the home town people, served many useful purposes and yet is still in the community to again serve.

## If Sent Away To Distant Merchants

—That ten dollar bill is gone for good. It may serve to build up the large city elsewhere. But so far as the home community is concerned its usefulness is at an end, and the community has been drained of just that much working capital.

## When in Need of Printing

—Remember that orders left with your home town printer will serve to pay wages of workmen who in turn spend this money with local business houses, thus serving to maintain that round of business which is necessary in order that rural towns throughout Canada may flourish and prosper.

### FIVE RING CIRCUS

Yep, youngsters, it's really true!

Meaning that a rumor heard some time ago is now confirmed by the official announcement that the Ringling Bros. and Barnum & Bailey Combined Shows will positively exhibit at Calgary, Tuesday, August 16.

At that time the world's first and only five-ring circus will be within easy reach of local sawdust fans. With it will come the only genuine white elephant ever brought to America. He is "Pawah," the world-famous sacred white pachyderm from Burma, who will be the foremost feature of a menagerie composed of more than a thousand animals.

The big show is now a third larger than it was when it last visited this locality. Enormous new displays have been introduced such ninety zebras, camels and horses performing at one time on a mammoth pedestal. On a similar series of circular raised platforms thirty-two of the show's forty-three elephants dance, run and perform in unison with the topmost of

the ponderous actors twenty feet above the ground. Prior to this gigantic display five herds of elephants appear in the five separate rings. At another time the rings are given over to five companies of liberty horses. At still another juncture of the program two hundred of the show's 900 horses each ridden by an expert, are seen in the brilliant maneuvers.

Of the sixteen hundred people carried on tour this season more than eight hundred are the world's foremost aerialists, bareback riders, ground and lofty gymnasts, high-wire artists and super athletes. These are now seen in extensive groups and troupes each display led by its particular champion, a new method of presentation that is in keeping with the Ringling Bros. and Barnum & Bailey 1927 plan of extending acts in equal number over the entire length of the mammoth main tent. Little folk will be delighted to learn that the bringing of a score of European clowns to America has increased the fun-makers to more than a hundred.

### BEATS ALL

One Turner Valley Producer Better Than All the 2000 Others Combined in Canada

Royalite No. 4 Turner Valley's won der well, produces more naptas or natural gasoline than all the other 2,000 producing wells in Canada. This statement has been issued in a report on natural gas and petroleum wells prepared by John McLeish, director of the division of Mineral resources, department of mines, Ottawa. This report shows also that the production of the Alberta fields places this province in the lead in this industry in Canada. The paragraph of the report dealing with this situation reads as follows:

"The southern Ontario (oil) fields showed a decline of 16,795 barrels from the production of 153,796 barrels in 1924, (for the year 1926). Up to 1924 this was the only producing area in Canada of any importance but with the bringing in of the Royalite No. 4 well in the Turner Valley field in the fall of 1924, Alberta took first place with a production of 183,491 barrels in 1925 and 217,088 barrels in 1926. The Royalite No. 4 well yielded an average of 455 barrels of high gravity oil naptas per day in 1925 and more than 600 barrels per day in 1926, and is, therefore, producing more naptas than the total oil production from the other two thousand odd wells in Canada."

"At the end of 1926 there were six completed wells in Turner Valley field with a combined production of about 800 barrels of 70-73 degree beaume naptas and 30,000,000 cubic feet of gas per day. In addition about 30 wells are drilling in the field. Results to date indicate that Turner Valley is one of the world's large natural gas fields."

Although, according to the report, there has been no production from bituminous sand on a commercial basis in Canada, about 1500 tons have been shipped for use in laboratory investigation. The report also states that properties which have been filed on in the neighborhood of Fort McMurray may produce street surfacing highway material, flooring, liquid hydrocarbons by distillation or mechanical separation.

Directors of the Home Oil Company recently paid \$107,000 for 40 acres of oil leases and plants from the Advance Oil Co.

### NO SPEED LIMIT

Statutes of Alberta have no Rigid Speed Limits on Public Highways in the Province

According to the statutes of the province, Alberta has no rigid speed limit for traffic on public highways. This has been gleaned from the regulations by Charles H. Grant, K.C., president of the Alberta Motor Association, in response to a request from the executive of the A.M.A. that complaints of motorists regarding arrests by the provincial police for driving in excess of 30 miles an hour, be investigated. The paragraph in the Vehicles and Highways Traffic Act respecting a speed limit reads as follows:

"At a rate of speed which is unreasonable, having regard to all the circumstances of the case, including the nature, condition and use of the highway and the amount of traffic which is then, or might reasonably be expected, on the highway."

There are, however, certain speed limits fixed beyond which the burden of proof that the speed was reasonable is upon the accused, i.e., a motorist is charged with excessive speed, the crown only has to prove that the motorist was at certain places exceeding a certain speed, and if the motorist does not prove then that the speed used was reasonable, having regard to the existing conditions, he would be convicted.

Those limits which are prima facie evidence of excessive speed are as follows:

1. Within a city, town or village: (a) On the street with a clear vision and between the intersections, 20 miles per hour; (b) In turning a corner, 10 miles per hour; (c) Approaching or at a street corner or curve where there is not a clear view of approaching traffic, 10 miles per hour.
2. On the highway: (a) On the straightway, 30 miles per hour; (b) Or at curves or corners as in 1 c, 12 miles per hour.

In addition to this municipalities may limit speed over bridges out must post a notice of such speed on the bridge.

"In my opinion, therefore," says Mr. Grant in his report, "a person who is summoned for excessive speed although exceeding the limits above mentioned, may not be guilty of an offense and is entitled to rebut the prima facie case by showing the conditions under which he was driving, and if under those conditions his speed was not unreasonable he ought not to be convicted, and in many cases undoubtedly a speed exceeding 30 miles on the highway is perfectly safe and reasonable."

### AMBITIOUS PLANS

British Building Large Planes to Carry Passengers on the India-Australia Route via Canada

The prophecy is made by a government official that moving mails will be erected in Canada, one at Montreal and one at Vancouver, to accommodate trans-atlantic airships that are now being built in Britain for service on the Indian-Australian route. There will be large land planes in Canada capable of carrying passengers from Montreal to Vancouver in 1927, after which flying from Vancouver to Australia will be tried out. "The big saving of time in using airships is not in jumping across the Atlantic, because the ocean liners make it pretty rapidly," this official explained, "but in the long hops from England to India or Australia. The best way to make the trip by air to Australia would be over Canada. The distance is about the same as going east, but over the eastern route there are many foreign countries to fly over and other complications, whereas by coming this way the trip would be all over British territory or the oceans. When the passengers reached Montreal they could have their choice of crossing Canada by rail or by air."

### OPEN PEACE BRIDGE

British, Canadian and U.S.A. Officials Open Peace Bridge. Speeches were of Friendly Terms

A span of stone and steel across the Niagara River was officially dedicated on August 8 to the continuance of more than a century of peaceful relations between Great Britain and the United States. The Prince of Wales and his brother Prince George, the prime ministers of Britain and Canada and Vice President of the U.S., Dawes, and Secretary of State, Kellogg, were present at the colorful ceremony. Premier Baldwin, speaking of differences between nations said: "Problems have arisen and will arise and will vary as to how they should be solved. Only recently we have had an instance of this. We have had in our hearts the this does not affect our friendship." The Prince of Wales said: "It gives me great pleasure to be present on the occasion of the formal dedication of this bridge, which commemorates the peace which has happily endured between the British Empire and the United States for more than a century. May this bridge be not only a physical and material link between Canada and the United States, but may it also be symbolic of the maintenance, of their friendly contracts by those who live on both sides of this frontier may serve as a continual reminder to those who will use it, and to all of us, that, seek peace and insure it is the first and highest duty both of this generation and of those which are yet to come."

Of the mutual friendly relations between the nations, Mr. Dawes declared: "The foundation of the great peace structure which we dedicate today rests on the firm bed rock of the Niagara and the peace of the English speaking people is as firmly based upon common instincts and ideals."

The regret of President Coolidge at not being able to attend the dedication was voiced by Secretary Kellogg, who welcomed the British visitors to United States soil for the first time during their present tour of Canada.

### ITEMS OF INTEREST

An Englishman has swum across the English Channel, making the 11th time the feat has been accomplished. It is an old story now.

Horatio Bottomley is to receive a fortune for writing his experience in prison. This looks like capitalizing crime.

Wm. Fraser Tolmie of Victoria, charged with manslaughter as a result of the death of a young girl riding with him when his car crashed into a telephone pole, is out on bail of \$10,000.

F. C. Elford of Ottawa was elected president of the World's Poultry Congress at Ottawa for 1928 at the session of the international gathering which closed at Ottawa on Thursday, succeeding Prof. Edward Brown of London, England, who has held this office for the past year.

The work previously done at the Stettler Excise Outpost will, it is announced, in future be carried on at the Camrose Customs Port, and this latter office will handle the excise stamps, sales tax and manufacturers' tax in the enlarged territory coming under its jurisdiction. Returns at the Camrose port of entry for the first six months of 1927 amounted to \$20,125.92.

The two large D.H.4B airplanes which have been engaged in government survey work in the Lacombe district left last Monday in charge of Flying Officers Paul Calder of Edmonton and Arthur Morfee of High River, for Prince Albert, Saskatchewan, where they will carry on a survey of the new forest reserve located north of that point. Both planes are expected back in Lacombe within 30 days to complete the survey work being undertaken in central Alberta.

Completing the first boatload, a train left Alberta during the past week for Quebec carrying 359 head of horses purchased in the province by officials of the Union of Soviet Socialist Republics. Included in this cargo from Quebec will also be 598 head previously shipped east, bringing the total number of horses purchased by the Russian government in Alberta during the past month up to 957. It is expected that buying for further shipments will again commence at points in the south and southeast of the province on August 8.

The catch limit per day of cutthroat rainbow, Loch Leven and Dolly Varden trout has been reduced to twenty, according to new regulations for the provinces of Alberta and Saskatchewan. This limit applies also in the case of grayling and Rocky Mountain whitefish, while the limit for other fish is as follows: Lake trout, 10; perch or goldeyes, 25; pike or pickerel, 15; bass 5. In the case of perch and goldeyes no one shall catch and retain more than 25 of either species or of both species than will in the aggregate number more than 25, the same regulation applying to pike and pickerel.

Continuous service was instituted at Consort on July 1, and it is expected that Forestberg and Ferintosh will also have this improvement within a short time, according to the monthly review issued by the Provincial Department of Telephones. Edberg, Meeting Creek and Ferintosh are being amalgamated with central at latter part, while over eighty applications for new installations have been taken in the Forestburg and Galahad districts. Crews have been kept busy in a number of districts during the past month repairing damage done to phone lines by wind and hail storms.

Edmonton building permits for the first seven months of 1927, totalled \$1,834,340 as compared with \$1,316,440 in the corresponding period last year, according to figures published in Edmonton papers, indicating a decidedly increased activity in building and construction work in the city. Alberta exhibitors carried off a number of high awards at Regina fair during the past week, in both grain and livestock classes. Robert Cochran of Grande Prairie won first in a big exhibit of timothy seed, and R. A. Meeks of Mannville took first in garden corn. O. A. Boggs of Daysland carried off a number of ribbons with his Hereford herd and Geo. R. Ball and Son of Strathcona won a number of classes of Oxford sheep and Tamworth swine.

### Gum-Dipping

A Firestone Contribution to Economical Travel

The greatest enemy to the life of a tire is the churning road, the broken pavement, the harsh grind of rough city streets. The heat which is created by internal friction. Heat not only weakens the rubber, it also softens the tread, the rubber becomes sticky and tire failure is inevitable.

Firestone knew that if they could find a way to eliminate this heat, they could eliminate internal friction, the greatest enemy of tires. They found it. They found a method was found and called "Gum-Dipping."

The Gum-Dipping process is one of Firestone's contributions to economical travel—in insulating and impregnating every fiber of every cord with rubber, reducing internal friction and at the same time binding the cords together by a stronger union of rubber, thus giving greater strength and flexibility to the tire.

Firestone dealers everywhere—familiar with Gum-Dipping and its advantages—will gladly explain how thousands of extra miles are built into Firestone tires by this exclusive method. Take advantage of the Gum-Dipping process to lower your tire costs this year.

### Here and There

Living births in Canada during 1927 totalled 2,000, the birth rate for the nine provinces being 21.8 per thousand of population. Deaths at all ages numbered 107,318 in the Dominion, a rate of 11.4 per thousand. Excess of births over deaths in the year was 194,887. A total of 66,570 marriages were reported during the year.

The general cool weather for this season of the year in British Columbia and the amount of moisture about has saved a great deal of timber from destruction by fire. So far this year there have been only 216 forest fires in the province, as compared with 570 for the similar period of last year. The present condition of the woods are excellent.

As a sign of agricultural progress in the west and industrial prosperity here, the International Harvester Company, Limited, have just sent two of the largest trailloads of threshers ever shipped to the west over C.P.R. lines from the east, the first train consisting of 43 cars with 111 threshers and the other of 40 cars containing 103 threshers.

The ratepayers of Victoria have endorsed a by-law providing for civic support of a proposal for the establishment by British interests of a motion picture producing industry here, by a vote of 2,137 to 693. The city was thereby authorized to guarantee bonds of the concern to the extent of \$200,000 after \$500,000 had been raised by British motion picture distributors and exhibitors.

A thriving new industry in Southern Alberta, which is making progress and is full of promise, is that of the raising of polo ponies. Three ranches are engaged exclusively in this industry and ranchers and farmers are coming increasingly to engage in it as a side line. About five cardinals or one hundred polo ponies leave Southern Alberta annually for the United States.

The Development Branch of the Canadian Pacific Railway in co-operation with Macdonald Agricultural College is conducting experiments on the farm of Donald Fraser at Plaster Rock, N.B., to ascertain whether gypsum, of which there are large deposits, has special value in connection with potato culture. Members of the staff of the college are supervising field tests on the farm.

The itinerary of the party of one hundred British newspaper men who will arrive at Quebec August 12, provides that during the month they are in Canada the Brits will visit practically every corner of the Dominion and, besides visiting every city of importance, have an opportunity of studying at first hand Canada's natural resources and investment possibilities. They will travel across Canada and back on Canadian Pacific lines.

Ottawa, Ont. — Canada's total wheat yield for the season 1927 is forecast at 325,075,000 bushels by the Dominion Bureau of Statistics. The estimate for the three Prairie Provinces is 305,652,000 bushels and for the rest of Canada 20,023,000. The total yield of oats is estimated at 389,758,000 bushels, of which 226,297,000 bushels is assigned to the Prairie Provinces. Barley is estimated at 88,830,000 bushels, of which the Prairie Provinces are expected to furnish 71,724,000 bushels. Rye is estimated at 12,169,600 bushels, of which 10,641,000 is allowed for the Prairie Provinces. For flaxseed, 5,319,300 bushels is estimated, of which all but 107,000 bushels is allowed for the Prairie Provinces.

Col. J. S. Dennis, chief commissioner of the Department of Colonization and Development, Canadian Pacific Railway, predicts a much larger immigration movement to Canada this year than last. He explained that the reported congestion of farm workers in the western towns was transient and not likely to recur.

What is said to be the first instance of Canadian-made machinery being shipped out of Canada into the States—manufactured in Canada to American order—is that of nine large wood pulp grinders, of an output of 100 tons of pulp a day, now ready at the plant of the Port Arthur Shipbuilding Co. for consignment to the St. Regis Co., Watertown, New York.

Excellent progress is being made with the branch-line programs projected by the Canadian Pacific Railway for the three Prairie Provinces this season, according to D. C. Coleman, vice-president in charge of western lines. The work of construction, he said, is progressing rapidly and every effort is being made to have the new line in operation by the time the fall crop movement begins. Keeping pace with the rising tide of land settlement, the company expects to open the line from Lloydminster to (C) Donald on July 15. This branch is of particular interest as it serves the colony of Hebrideans located in the Clan Donald district. These settlers are doing remarkably well and have forty per cent. of their land broken.

### ITEMS OF INTEREST

Why regard the \$2 bill with distrust? It's just as good as a dollar bill used to be.

Lindbergh wears shoes size 13. No wonder he didn't take anyone with him on his flight.—Border Cities Star.

Garnet wheat and other early varieties are coming along nicely and should be ready for the binder in a fortnight's time.

Arthur T. Walker, a Canadian who inherited the greater part of Edward Seales' estate multi-millionaire of New York died suddenly on August 7 from acute indigestion.

Joe Elliott, of High River, was fined the costs of the court by J. F. Castel J.P., at High River, on August 2, for fishing in Pekisko creek, a stream under the Fishery act. The information was laid by Sam Smith, fish guardian.

A severe hail storm struck Carleton and district Thursday, August 4 when it was considered 75 per cent damage was done to the crops of Sam and Ed Nelson. Although the hail covered a small area it was bad.

Mrs. Laurie of London, Eng., while at Banff last year was bitten by a bear and as a result she has brought action against the Rocky Mountain Park superintendent for permitting such an offence.

The Winnipeg Tribune carrier boys, composed of 21 young boys who, by their endeavors in selling papers, gained a trip to the coast and were visitors at the E.P. Ranch on Thursday.

T. O. F. Herzer, manager of the Canada Colonization Association, states that this organization has placed 400 Old Country families in the Prairie Provinces this year and that 800 other families will arrive before the end of the year.

Messrs. Ludwig Geishop of Paramount pictures and J. J. Frankel of the International News Service who are in High River this week will be remembered by readers as the two mired souls who were successful in wrangling themselves into the privacy of the home of the celebrated Mrs. Stillman in Quebec on the day of the wedding feast of her son and who were made the targets of Mrs. Stillman's wrath when she hit them on the eye with pieces of wedding cake.

**KIRKCALDY NEWS**

Miss Dingley of Calgary has been spending several weeks with Miss Irene Fox.

Mrs. Snyder's daughter of Edmonton is spending some time with her mother.

Mr. and Mrs. Fox of Kirkcaldy spent several days of last week in Lethbridge.

Miss Williamson of Manitoba is spending her holidays with her sister Mrs. Baldwin.

Mr. and Mrs. Finlay have moved to Staveland where Mr. Finlay will operate the Western Canada elevator. While he was here in Kirkcaldy he operated the Western Canada also.

Miss Langstaff and Miss Bowles of Ontario are spending the summer holidays with Mr. and Mrs. Myers.

Mrs. Roebuck is in the hospital in Calgary again and everyone wishes her a speedy recovery, and that she can be home in a short time.

Mr. and Mrs. Leslie Welton and two children and Mrs. Hall motored up from the States and are the guests of the Dunbar family. They had a Hills in South Dakota and also saw President Coolidge and Mrs. Coolidge at their summer residence in the Black Hills. Besides they visited many other beautiful places, in all a distance of 2200 miles.

**BLACKIE NEWS**

John McRobbie was the first householder to install an electric cooking range in his home at Blackie. It is rather satisfying to people not served with natural gas to realize that they have the advantages of more modern cooking equipment and at a rate well in the bounds of the average individual.

Mr. and Mrs. E. Mills, formerly of Mills & Walker, were in town on Friday and Saturday having motored up from California where Mr. Mills has been seeking to recover his health. They were the guests of Mr. and Mrs. A. A. Dawes. Mr. Mills has also sold out his business at Glenora and is still interested in farmland at 2200. Should his crop turn out favorable Mr. Mills will return to California. Many old friends and acquaintances were glad to see him and hope that he will be back in Blackie this week.

Mr. Jack Crandell and family expect to leave Blackie this week for Calgary where Mr. Crandell has decided to live. Jack has been manager for Little's Consolidated for several years, highly respected in business and as a citizen. As secretary of the community club, secretary of the United Church, assistant Sunday school superintendent, he will be greatly missed. He leaves with the goodwill and best wishes of the community for his future success. The children too, are exceptionally bright, regular in their attendance at Sunday school and with their parents will be greatly missed. The village of Blackie wish them success in their new surroundings.

Men who write books about themselves are full of their subjects.

All that stands between us and a hot time is the rest of this summer's ice.

It may be that the mills of the gods grind slowly because they get paid for overtime.

With so many other things to worry about some men insist on wondering if their hair is combed.

If nothing happens to this year's crop we will soon be singing "In This Wheat Buy and Buy."—Redcliffe Review.

It's too bad they made Lindbergh a colonel. There are so many of them in the United States.—Peterborough Examiner.

Crude oil from the Devenish well at Skiff is being shipped to the Imperial refinery at Calgary. Three car loads were sent up this week.

All the double plays don't occur on the baseball field. A San Francisco couple have just welcomed their third set of twins.—Border Cities Star.

At a recent meeting of the Alberta Development Board at Calgary it was urged that all citizens of towns and cities should aid in advertising Alberta to Made Goods.

The teachers have been appointed for the Blackie school as follows: Principal, J. Wilson; Mrs. Peters, Miss Estelle Cameron and Mr. Glen Lockwood. Grade eleven will still be taught.

A shipment of 1,400 horses, purchased in the prairie provinces for the Russian government, is moving to Quebec over C.P.R. lines. In addition to the 27 carloads already moved to the east, a special train of 17 cars passed through Winnipeg Thursday en route to the Atlantic coast. The horses in the latter shipment were all purchased at Alberta points.

The exhibit from the Canadian Pacific demonstration farm at Brooks in the Arts Building at Calgary is again attracting much attention this year. There are 75 varieties of grain, 60 different grasses, bush fruits, apples, pears, cherries, currants and gooseberries, as well as vegetables, trees grown in Alberta—elm, ash, beech, maple, black walnut—and other products.

The buffalo, transferred from the park at Wainwright to Fort Vermilion vicinity, wintered well in their new home as there are few wolves on the range and feed was abundant, according to Ranger Milne at Fitzgerald, who has come out to accompany a fur, there shipment of buffalo northward. About 750 animals still remain to be transferred out of the 2,000 consignment.

Two thousand reindeer will be introduced into a park in the Mackenzie district of the Northwest Territories, if the report of A. E. and R. T. Porsh, men of wide experience in the Arctic, who are investigating thoroughly conditions in the area, are favorable. This will be the next step of the Dominion Government to conserve the wild life in the northern areas of Canada, following the successful transfer to that territory of buffalo from Wainwright Park.

Okotoks held their annual fair on Wednesday afternoon last and a big gathering of the countryside people were there to spend the day. The Elks' band of High River or twenty pieces were there and rendered the music for the occasion. Foot races, horse races and auto races on the track composed the sport end of the occasion, while the judging of the sheep, swine, cattle and other interests were being made in their different locations. It was claimed to be a successful event in all respects. A large number of High River people were present.

Some of his old-time friends had the great pleasure of renewing acquaintances with Mr. A. W. Kelly on Thursday. Accompanied by his wife and Mr. and Mrs. Prophet of Shelbourne they spent a short time in town on their way from Wasaga Beach. Mr. and Mrs. Kelly will motor to their home in High River, Alta. It is twenty-two years since Mr. Kelly went out of the hardware business in Collingwood and moved to the west where he located in High River, next door to the ranch of His Royal Highness the Prince of Wales. Great changes have taken place here, but A. W. found old friends who gave him a cordial welcome.—Collingwood Bulletin.

The Fish Hatchery truck on its way to the upper Highwood from the Banff Hatcheries to plant fingerlings or small fish in the tributaries of the river, came to grief on the Ing's grade last week end during one of the bad weather spells of the trail. The truck was carrying four large cans of the fish and went over the bank completely turning over at least five times, and spilling two of the cans of fish; the other two remaining intact. The two men in charge luckily escaped without serious injury. The car was so badly damaged that they could not proceed further with it and in order to save the other two cans of the plantings they emptied them into the main Highwood River. The men were taken back to High River and the disabled truck taken to the High River Motor Co. for repairs.

The Shorthorn bull, King of the Fairies, recently sold from the Canadian ranch of H.R.H. the Prince of Wales, to a United States breeder, again won the premier prize at the Calgary Exhibition. The "King's" win district and George M. Dunlop, lost out and had to veil his crest to Colony White Ensign, belonging to T. A. Russell, of Toronto.

According to Walter Hagen, the golf star, "Plus Fours" have had their day as golfing attire as a result of the Prince of Wales and Prince George while in Canada playing in their tennis toggery. Plus Fours are altogether too loud for the average man and the two Princes are to be complimented if they succeed in bringing into vogue a more conservative style of golf attire.
